How many times have you gone through the tunnels under the Hudson and East rivers and wondered about the engineering feats involved? Weren't there questions you wanted to ask but never had the opportunity or source of information.

Here is your chance!

The Port of New York Authority has provided a speaker to talk on and answer questions on the general and technical aspects of tunnel building.

This talk is to be held Wednesday, March 4th at 7:30 P.M. in the Research Staff Lounge. It will be open to all members of the laboratory, their relatives and friends. Passes will be issued at the gates.

This talk is one of a series of open meetings sponsored by our local Naval Reserve Research Company 3-9.
